

Key Stage 4

Year 10

2019-2020

Dear Parents and Carers,

Welcome to the start of Year 10, the start of Key Stage 4 and the start of your child's two-year IGCSE journey.

Students must quickly adapt to the changing work load and requirements of their new IGCSE courses. Many students will feel a noticeable 'jump' in expectations and it is of utmost importance that we provide strong pastoral support to help students manage this change. In addition, we give great importance to the development of supportive relationships between students - the success of each of our students individually is reliant on them working together as a group, to create the very best atmosphere for learning.

We always strive to create a school environment that is academically challenging but that is also understanding and attentive to the development of each student, since only then can they reach their full academic and personal potential.

As in previous years, we cannot underestimate the importance of parental support on this journey. We look forward to working with your support this year, to enable your child to achieve their very best.

Jade Lewis-Jones
Head of Year 10

Secondary Educational System

Overview

Secondary Education at Caxton College covers the final three stages of the English National Curriculum:

- **Key Stage 3** (Year 7 to Year 9)
- **Key Stage 4** (Year 10 and 11)
- **Sixth Form** (Year 12 and 13, also commonly known as Sixth Form)

Key Stage 3 laid the foundation for future learning. Students studied all British subjects and the three compulsory Spanish subjects, as well as Career Skills, Personal Development and Ethics or Religion.

In Key Stage 4, students begin to specialise, focusing on compulsory core subjects, as well as their option choices. At the end of Year 11, students sit external examinations to obtain the IGCSE (International General Certificate of Education). Caxton College is a recognised exam centre for the University of Cambridge, Pearson's Edexcel and AQA Examination Boards. These IGCSEs also enable students to obtain their ESO certificate for Spain. Access to Key Stage 5, also commonly known as 'Sixth Form', is dependent upon the IGCSE results.

Currently, access to Spanish Universities is gained by combining the final grades from the English A Levels with the grades from the two Spanish PCE subjects. Each student's choice of A Levels and PCE subjects will be linked to their future University/career aspirations.

Throughout Secondary, it is our aim to ensure each student makes the academic progress they are capable of, as well as equipping them with values and life skills they will need beyond school. This is a crucial period in which students learn to organise themselves, to become more independent and to take responsibility for their actions and decisions.

Clear communication and support between home and school is essential for effective teaching and learning and also for the success of our students.

Spanish System	British System	Key Stage	Public Examinations
6º Primaria	Year 7	Key Stage 3	
1º ESO	Year 8	Key Stage 3	
2º ESO	Year 9	Key Stage 3	
3º ESO	Year 10	Key Stage 4	LAMDA
4º ESO	Year 11	Key Stage 4	IGCSE
1º Bachillerato	Year 12	Sixth Form	AS level/ Advanced level
2º Bachillerato	Year 13	Sixth Form	A2 level/ Advanced level

Assessments and Reports

Each academic year is divided into three Assessment Periods. At the end of each Assessment Period, parents will receive an online report of the academic performance and behaviour grades obtained by their child. This includes overall grades for each subject following Assessment Period three.

Academic Performance in all subjects is graded from 9 to 1 (with 9 being the highest possible grade and 1 being the lowest), in accordance with the English National Curriculum. Behaviour is graded from A to F (with A being the highest grade possible and F being the lowest).

A variety of assessment methods are used throughout the year and vary from subject to subject. In addition, at the end of Year 10, students will complete 'End of Year' exams in English, Maths and Science, as well as the 3 optional GCSE subjects, which are worth 50% of the year grade in each subject.

Caxton College has a clear progression policy from one academic year to the next. Further information can be found in the 'Criteria for Progression' section of this handbook.

Internal Exams and Assessments

Exams are an important assessment tool, allowing acquired knowledge to be consolidated and providing an objective view of the student's progress. Internal exams act as good preparation for the external exams that students will face in Key Stage 4 and Key Stage 5.

If a student is absent on the day of an exam or assessment, and this absence has not been authorised, the student will receive a zero. In addition, during the 'End of Year Exams' period, if a student is absent the day before an exam, and this absence has not been authorised, the student will receive a zero, even if they are present on the day of the exam.

Please note that it is only in exceptional circumstances that we will allow a child to sit an exam or submit work for assessment outside of its scheduled date. Therefore we strongly advise that parents do not plan trips or other activities that require the student to be absent from school during term time.

If a student misses an exam or assessment, they must contact their teacher as soon as they return to school, to arrange a new date for assessment.

Delivery of Subject Content

Students are taught in a number of different ways throughout the various subjects including: groups being split by ability, mixed ability groups and being taught as a form group. This ensures the needs of all students are met and gives students the best possible chance of achieving their maximum potential academically.

In Year 7 these groups are created from the information provided by their Year 6 teachers including the results of EPTs.

From Year 8 – 11, information from internal evaluations, teacher observations and final exams contribute to the formation of groups.

A student may move from one set to another throughout the year based on academic performance. It often takes place at the end of an Assessment Period or the start of the next one, and is done in order to ensure students achieve their maximum potential.

Please rest assured that there is no difference in the curriculum students follow, the exams the students sit or the books the students use. Different groupings simply allows for the greatest possible progress to be made, by all students, using the most suitable teaching styles.

Criteria for Progression from Year 10 to Year 11

1. A pass grade at this level represents grades 9 – 5.
2. Students will only be allowed to progress to the next year if they have passed ALL subjects with a grade 5 or higher.
3. If a student fails:
 - 1 Subject – Students have the opportunity to resit* the subject in August. (Resit dates 26th & 27th August 2020).
 - 2 Subjects – Students have the opportunity to resit* the subjects in August. (Resit dates 26th & 27th August 2020).
 - 3 Subjects – Students have the opportunity to resit* the subjects in August. (Resit dates 26th & 27th August 2020).
 - 4 Subjects or more – No resit opportunity. Students ONLY option will be to repeat the year or leave the school.

*In Personal Development, Religion, Ethics, and PE resits consist of a project to be handed in on the 26th or 27th August 2020, rather than an exam.

4. If a student fails resits in August, a ‘Claustro’ meeting (attended by SLT and the school Psychologist) will be held to decide if the student will be given the opportunity to repeat the year or not. Students cannot repeat a year more than once during their education at Caxton College.

Please note:

Progression is not solely based on academic achievement. Progression is also reliant on a student’s ability to demonstrate the behaviour and maturity appropriate for the demands of the year group. As such, the school will also carefully consider student’s behaviour grades, alongside academic achievement, when making decisions about progression.

IGCSEs Receiving Equivalent Qualifications in the Spanish System

IGCSE's (International General Certificate of Education) are British qualifications studied across two years (Year 10 and 11) and consist of an external exam taken at the end of Year 11 in May/June set by the exam board in the UK.

Students in Year 9 will have chosen 2 or 3 optional IGCSE subjects to study in Years 10 and 11 (dependent upon the Science chosen). These subjects are studied alongside the compulsory English, Maths and Science IGCSEs as well as all internally assessed subjects.

It's important to note that some optional subjects (Art, Computer Science, Music and Single Sciences) require students to meet higher criteria than the pass grade of a 5 to be able to take the subject in Year 10.

The requirements of the Ministry of Education of Spain requires students to take and pass Year 10 and 11 obtaining a minimum of four IGCSE passes at the end of Year 11 and pass the compulsory Spanish subjects Lengua, Sociales and Valenciano/ELE. This is essential for completion and convalidation of Secondary Education in Spain. In doing this students will receive the ESO (Certificate of Secondary Education in Spain).

The validation requirements differ to the Criteria for Progression used within the school as noted in previous page.

Monitoring of “At Risk” students

If a student is not achieving the expected Level 5 or above, by the end of each Assessment Period, the subject teacher will complete an Academic Action Plan (AAP). The AAP will outline areas for improvement along with suggested strategies for improvement. This information is shared with parents through the Progress List.

If a student is not achieving a Level 5 or above, in a range of subject areas, they may be placed on monitoring by their Head of Year. This means that their subject teachers must write a comment on Progress List at least once per fortnight, updating parents about their child's progress and attitude.

In addition, parents may be asked to attend a meeting with the subject teacher, Head of Department or Head of Year, in order to ensure the student, parents and teachers work together to bring about an improvement.

Private tutoring

If your child has private lessons for a specific subject or subjects, it is always useful to inform the Form Tutor and/or relevant subject teacher(s).

Homework and Independent Work

Subject Teachers will assign homework when they feel it is most appropriate. For some subjects this may be weekly whereas others occasionally, and for this reason on some days, students may have less homework than on others.

In addition to this we recommend that students spend approximately 30 minutes per day reviewing notes, completing any unfinished tasks and carrying out independent work at home. This consolidates knowledge and the understanding of topics covered and encourages a notion of independent learning, which we at Caxton aim to generate and foster.

This style of learning develops

- Good learning habits for life
- Family involvement in learning

We would also advise that student's focus an additional 25-30 minutes per day on any subjects that they feel are more challenging.

If, at any point, students feel overwhelmed, please encourage them to speak to their Form Tutor, or please contact the Form Tutor directly.

Absences

If a student is absent from school due to illness, we believe they should be at home resting and recuperating. If a student is absent for:

- 3 days or less - it is the student's responsibility to catch up on the work missed using google classroom or notes from a fellow student. **We ask that parents refrain from emailing and requesting work from teachers at this point.**
- 4 days or more – In the first instance students should check Google classroom for resources and/homework **before** making contact with subject teachers.

Any planned absences should have permission from a member of the

Senior Leadership Team. Under these circumstances, it is the student's responsibility to speak to staff, collect work, complete it and hand it in, in accordance with the conditions set by the individual subject teachers.

School Supplies

School supplies fees are dedicated to general classroom resources, including technological, art and science laboratory resources, as well as photocopies and printed resources. School supply fees do not include the cost of individual materials such as text or exercise books, or necessary iPad Apps.

All students are required to provide their own:

- Pens, pencils, rubber, pencil sharpener
- Ruler of 30cm
- Compass
- Protractor
- Scientific Calculator (we recommend the Casio FX-85ES or a similar model that has the 'replay' function)
- iPad 2018, 128 Gb. This is mandatory for all Y7-11 students.

Text books, exercise books and relevant iPad Apps can all be purchased through the school. Some resources may only be used for one academic year, but many will be used across multiple years.

Parental Contact

As you know, in order for us to be successful in maximising your child's potential and helping them achieve their goals in life, it is essential that parents, staff and students work together.

We are confident in our approach and we work exceptionally hard to ensure students are well supported in school and that they feel safe. It is incredibly important that students are given opportunities to develop resilience, to accept responsibility and to become more mature.

As parents, we trust that you make the best decisions for your child at home and therefore we kindly ask that you give us the same courtesy in school. Our teachers are professionals in their field, with many years of experience of working with young people. We want the best for your child and will always base our decisions on this principle. As a result we respectfully ask you to trust our judgement and think carefully before making the decision to contact the school to make a complaint.

We aim for the highest level of consistency and fairness across the school, and all teachers use our Behaviour for Learning Policy to guide them (available in full on the Parent Profile). The majority of minor issues will quite easily be dealt with and resolved, without the need for parental involvement.

Please remember staff keep in regular contact via the Progress List, which can be viewed daily through the Parent Profile. For more pressing or serious issues, a member of staff may contact you directly for additional help and support.

If you do feel the need to raise any concerns or would like to share good news with us, please contact the school via the Parent Profile. In doing so, you will receive an acknowledgment from the school that your email has been received and you should then expect an email or phone call response within 72 hours. Parents are also welcome to meet face-to-face with staff, but we do ask that you contact the Secondary Secretaries and arrange this in advance. Our staff are busy teaching, preparing lessons, marking student work and giving one-to-one student support, and will not be able to meet parents who arrive at the school without a prior appointment.

Caxton College will not tolerate abusive behaviour towards our staff, whether this is written, verbal or physical. Your child's education is very much a team effort and we ask for your help and support throughout their time here in Secondary.

Additional School Policies and Handbooks

Should parents wish to consult any of our policies or handbooks in greater depth, these are available to view via the Parent Profile;

- Anti-Bullying Policy
- Anti-Drugs Policy
- Behaviour for Learning Policy
- Child Protection and Safeguarding Policy
- General Information for Secondary & Sixth Form
- Health and Safety Policy
- Progression Policy
- Technology Policy

General Information About Subjects

The subjects studied in Year 10 and 11 can be divided as follows:

IGCSE SUBJECTS		NON IGCSE SUBJECTS	
Compulsory British subjects	Optional subjects (choose 3 or 2 if Single Sciences has been chosen)	Compulsory Spanish subjects Internally assessed	Additional subjects included in the Y10 curriculum.
English language Maths Science*	Art Business Computer Science French German Geography History English literature Music PE Psychology	Lengua** Sociales** Valenciano** Or ELE (foreign students)	Religion/Ethics Personal Development Physical Education LAMDA – Public Speaking Qualification

* Science is offered as a Double Award certificate receiving 2 GCSE grades for the subject or Single Award Sciences; Biology, Chemistry and Physics receiving 3 GCSE grades (a GCSE grade for each individual Science). The single award covers content in greater detail and better prepares those students who wish to choose Biology, Chemistry or Physics for A-level, although it is not obligatory to take Single Sciences to access A-level Sciences. Students that prefer to take a greater variety of subjects in Y10 would be recommended to opt for the Double Award.

** Lengua, Sociales and Valenciano/ELE are required for convalidation of the ESO (Secondary Certificate of Education) in addition to passing minimum of 4 GCSE subjects with a grade 5.

General points to Note:

GRADING

In all subjects students will be assessed on a grading scale from 9-1 in line with UK assessments, 9 being the highest, 1 being the lowest and 5 being the required grade to pass at Caxton with the exception of LAMDA, which is externally assessed and is graded as a Pass, Merit or Distinction.

GOOGLE CLASSROOM

Is an educational platform in which all teachers across all subjects place materials and resources such as: videos, articles, recommended Reading, websites of interest as well as exam dates and homeworks. All located in one place with the added advantage that students can collaborate on work, submit work electronically and teachers can mark it, give feedback and grade work. Teachers and students can keep in regular contact and post comments and instructions at a moments notice. A great addition to the technological world of teaching.

INDEPENDENCE AND RESPONSIBILITY

Students in Secondary will be encouraged to take more responsibility for their learning, be proactive, take the initiative and become more independent. Subject specific problems should first be discussed with their class teacher before approaching the Head of Department, Academic Head teacher or involving parents.

SUBJECT INFORMATION

All subjects have outlined their intended course contents below, however please be aware that this is a guideline only and may be subject to change. These changes will be at the discretion of the Head of Department due to changing circumstances within the term such as, term length, bank holidays, special activities organized within the school, student understanding of key content etc... in the best interest of the students.

Assessment

All subjects carry out the same internal assessment throughout Y10 & Y11:

- Year 10: End of term tests, mini/progress tests, class work, exam style questions, projects and homework all contribute towards each term grade (1, 2 and 3) with a final End of Year exam contributing 50% to the overall End of Year grade.
- Year 11: End of term tests, mini/progress tests, class work, exam style questions, projects and homework all contribute to create both the Term 1 and Term 2 grade. In January of Year 11, all students will complete a Mock exam in all IGCSE subjects in preparation for the real IGCSE exams, which take place in May/June, and a predicted grade is generated for each subject and shared with parents in April/May.

Each subject has identified the FINAL IGCSE assessment in the information below: exam papers, percentages, duration of exams, coursework and subject specific information.

Head of Department: Ms Liz Edwards

Introduction: If you enjoy a challenge, thinking creatively, working practically and engaging with the world of Art and Design, this course could be for you. You will work in a variety of media and techniques, but unlike KS3 you will be working in a more individual and independent way. Enthusiasm for the subject and an open mind are essential.

Course Content:

- Year 10 starts with a project that ensures access to first hand sources, such as Landscape or Food, and every piece of work produced in it (both in school and at home) including the first term of Year 11, becomes the 'Coursework Unit'.
- Year 11 will have the Autumn term to complete coursework on themes taken from previous exam papers (which will include the mock exam before Christmas). The actual exam paper is given out early in term 2 to allow for weeks of preparation in class and at home in developing an individual response. Unit 2 is externally set.

Assessment: Unit 1 (Coursework) will form 60% of your GCSE grade and consists of everything you do from the start of the course to term 2 in Year 11.

Unit 2 (the externally set exam theme) forms 40% of the final grade and as it is given out well in advance of the creation of the final piece, under exam conditions, it should hold no surprises. The actual exam time is 10 hours, usually spread over 3 days.

Exam board: Edexcel

Entry requirements for Year 10: Grade 6 in Art in Year 9.

Possible future careers:

Digital Web Based Designer

Interior Designer

Architect
Museum Curator
Art Dealer
Film and Theatre Set Designer
Fashion Designer
Special effects makeup artist
Photographer
Art restoration and conservation
Game Designer
Creative Director
Theme Park Designer
Commercial Display Planner
Courtroom artist
Gallery Director
Product Designer
Graphic Designer
Illustrator (Medical/ Industrial/ Book/Art Therapist/Graphic Novels/
Signage/ Archeological)
Layout for Magazines

Value of the subject for the university: Dependent on choice of study area: Creative Thinking, Problem Solving, Visual Literacy, Film Studies, History of Art, Fine Art, Marketing, and courses linked to careers listed above.

Subjects that can be complementary: Maths, Physics, Psychology, ICT, English Literature.

Recommended web pages.

- <https://caxtoncollege.com/en/category/publications/#ancla4> (The Caxton Exam Exhibition catalogue from 2018 showing images of student work)
- <https://www.gold.ac.uk/art/> (Goldsmiths, London, one of many possible future destinations for Art degrees).

Head of Department: Ms Jade Lewis-Jones

Introduction: This subject gives you the opportunity to learn about the many areas of business and how they are applied in real life situations. You will be able to study how both small and large businesses are operated and explore the basics of starting up a new business venture. You will also develop a good understanding of marketing, finance, operations and human resources.

Course Content:

Year 10		
Term 1	Term 2	Term 3
Business Objectives	International Trade & Exchange Rates	Training
Types of Organisation	Government & External Influences	Legislation
Factors of Production	Judging Business Success	Methods of Motivation
Sectors of Industry	Organisational Structure	Department Functions
Location	Communication	Legal controls over Employment
Globalisation	Recruitment & Selection	Revision

Year 11		
Term 1	Term 2	Term 3
Importance of Marketing	Economies & Diseconomies of Scale	Accounting & Finance, Sources of Finance
Market Segmentation	Production Methods	Budgets & Cash Flow Forecasts
Marketing Mix	Quality Technology in Production	Costs & Break Even Analysis
Market Research		Financial Statements

Assessment: The final IGCSE grade will be based on 2 one hour and 30 minute external exams at the end of Year 11.

Paper 1: Investigating Small Businesses - 1 hour 30 mins. (50%)

Paper 2: Investigating Large Businesses - 1 hour 30 mins (50%)

Exam board: Edexcel

Entry requirements for Year 10: Level 5 in English and Level 5 in Maths

Possible future careers: The transferable skills and knowledge you will gain through the study of Business at Caxton College will be invaluable in enabling you to access a wide range of courses at university and give you an excellent grounding for multiple career opportunities including:

Banking and Finance

Business Law

Management Consultancy

Teaching and Development

Logistics

Fashion and Retail

Data Analyst

Trading

Subjects that can be complementary: Computing/ICT, Ethics, Geography, Languages, History, Maths, Physical Education, English

www.bbc.com/news/business

www.businessed.co.uk/

Head of Department: Mr Gustavo Balbuena

Introduction: Would you like to play a part in the exciting and rapid changes in communication systems that impact on our daily lives? Are cutting-edge technologies such as 3D graphics, virtual reality and artificial intelligence appealing to you? Some of the most popular degrees in the country are focused on Computer Science and in a highly digitised world, there are few employers who don't value computing specialists. At Caxton College the course is developed with the demands of the modern world in mind. You'll learn how computer programmes work including different programming languages; construction and maintenance of computer hardware and computer modelling and analysis, apps and computer games.

Course Content: Year 10 & 11 - Logic, algorithms and data representation (binary and hexadecimal numbers). Analysis of problems in computational terms through practical experience of solving problems, including designing, writing and debugging programs. Real-world programming with Python. Impacts of digital technology to the individual and to wider society.

Assessment: 100% external assessment consisting of two papers in Year 11:

- 1) A written examination: Principles of Computer Science (50%)
- 2) A practical programming examination: Application of Computational Thinking (50%)

Both with questions and tasks designed to be accessible to students of all abilities.

Exam Board: Edexcel

Entry requirements: Grade 7 in Maths or Science.

Possible future careers:

Information Technology and telecommunications professionals

Software Developer

Web Designer

IT support Technician

Management Consultant

IT Manager

Graphic Designer

Robotics engineering and Automation.

Value of the subject for university:

Computer Science is a discipline, like Maths, Physics, or History. It has a body of knowledge, established techniques, and thinking skills, that will last students a lifetime. The core skill-set of Computer Science offers the opportunity to learn the workings of the digital systems that pervade the world today including various technologies and programming techniques allowing access to the many IT job opportunities there are, and understanding the vital contribution that IT makes to the wider economy.

Subjects that can be complementary: Maths, Science (particularly Physics).

Recommended Web Pages

<https://www.bbc.com/bitesize/examspecs/zdqy7nb>

Head of Department: Mr Stephen Miller

Course Contents:

First Term	Second Term	Third Term
<ul style="list-style-type: none"> • Introduction to IGCSE • Personal Challenges • Moral dilemmas • Transactional writing • Imaginative writing 	<ul style="list-style-type: none"> • Unseen texts • Imaginative writing • Autobiographical writing • Still I Rise • Short story writing 	<ul style="list-style-type: none"> • Transactional writing • End of Year exam revision • End of year exam: Paper 2 • Speaking and listening: "Save the book" • Travel experiences

Assessment: Edexcel IGCSE English Language Specification A.

Paper 1: Non-fiction Texts and Transactional Writing. (60%). 2 hours 15 mins.

- Section A: Reading – a mixture of short- and long-answer questions related to a nonfiction text from Part 1 of the Pearson Edexcel International GCSE English Anthology and one previously unseen extract.
- Section B: Transactional Writing – one 45-mark writing task, from a choice of two involving a given audience, form or purpose. Students will be provided with the anthology text in the examination.

Paper 2: Poetry and Prose Texts and Imaginative Writing (40%). 1 hr 30 mins.

- Section A: Reading: one 30-mark essay question on a poetry or prose text from Part 2 of the Pearson Edexcel International GCSE English Anthology.
- Section B: Imaginative Writing – one 30-mark imaginative writing task from a choice of three.

Exam Board: Edexcel

Entry requirements: Pass English in Year 9 with a grade 5.

ENGLISH LITERATURE

Head of Department: Mr Stephen Miller

Introduction: Literature isn't simply about reading books! It helps us to understand the world we live in, giving us insight into different cultures, while developing a number of skills such as presentational, conversational and debating abilities, not forgetting the more obvious benefit of greatly improved writing technique. Literature will certainly enable any student to attain a level of English they would not reach without such study.

Course Content:

- **Year 10:** *An Inspector Calls* by J.B. Priestly. Poetry from the Edexcel Anthology.
- **Year 11:** *Of Mice and Men* by John Steinbeck. *Macbeth* by William Shakespeare. Poetry from the Edexcel Anthology.

Assessment: Component 1: Poetry and Modern Prose. This is closed book, but candidates are given a copy of the poems in the examination. The paper is 2 hours long and is worth 60% of the total IGCSE grade. Component 2: Modern Drama and Literary Heritage texts. This is an open book examination. The paper is 90 minutes and is worth 40% of the total IGCSE grade.

Exam Board : Edexcel

Entry requirements: A level 5 in English in Year 9.

Possible future careers: Law, Journalism, Advertising/Marketing, Internal Relations, Personnel/Human resources, Civil Service, Educator, Translator, Travel Business, Proof Reader, Acting, Direction/Production (film and TV), Theatre, Script writing, Radio, Music Business, Politics, Historian and related careers, Curator, Cultural affairs occupations.

Value of subject for the university: Taken at A level, English Literature is a highly respected subject at university, especially in the United Kingdom and the USA.

Subjects that can be complementary: At this stage over specialism is unnecessary and English Literature can be taken with any available options. It does however go especially well with humanities subjects, like History.

Recommended Web Pages:

www.bbc.co.uk/education/revision

www.shmoop.com

www.bbc.co.uk/schools/gcsebitesize/english

More recommendations will be given throughout the course.

Head of Department: Ms Cathy Desbois

Introduction: You have been learning French for 3 years AND you have already studied 2 modules of the IGCSE course....Doesn't it make sense to keep going and get a qualification? Not yet convinced? Keep on reading....

Did you know that French is....

- Along with English, the only language spoken on five continents.
- France is often considered the language of culture. A French lesson is a cultural journey into the worlds of fashion, gastronomy and architecture.
- A career asset: French is a working language in a wide range of sectors (retailing, automotive, luxury goods, aeronautics, etc.). France, as the world's fifth biggest economy, attracts entrepreneurs, researchers and the cream of foreign students.
- An advantage for studying in France: Speaking French opens up opportunities for higher education at some of France's best-known universities or elite 'grandes écoles'
- The language of international relations in the United Nations, the European Union, and UNESCO amongst others. Proficiency in French is essential for anyone considering a career in any international organisation.
- A language of reasoning and debate: French is an analytical language that structures thought and develops critical thinking.
- A language that opens up the world: After English and German, French is the third most widely used language on the internet, ahead of Spanish.
- A great opportunity to go on exchange programs in France, Canada, Switzerland, Belgium and at least 30 more countries where French is the official language!

MOST IMPORTANTLY French is a language that is fun and easy to learn, especially for Spanish native students!

Year 10 & 11 Course Content:

Theme A: Urban and Rural Life, Holidays and Tourism, Customs and Traditions

Theme B: School Life, Careers and Volunteering, Future Plans

Theme C: House and Home, Relationships, Role Models, Childhood

Theme D: The Environment, Travel and Transport, Technology

Theme E: Hobbies, Sports, Shopping, Food and Drink

Assessment:

- Paper 1 - Listening and Responding (25%). 35 minutes.
- Paper 2 – Reading and Writing (50 %). 1hr45 minutes.
- Paper 3 – Speaking Assessment (25%). 8-10 minutes.

Exam Board: Edexcel

Entry requirements: A level 5 in French in Year 9.

Possible future careers: Translator, Interpreter, Publishing, Proofreading, Diplomat, Ambassador, Tour guide, Resort staff, Flight attendant, French teacher, ESL teacher, Voice over artist.

Value of subject for the university: Learning another language enriches the mind and opens up new horizons, both personally and professionally. For those students wanting to increase their chances of finding a job either at home or abroad in a number of different fields, French is an excellent A Level choice.

Subjects that can be complementary: French can be taken with any available options.

<https://www.parlons-français.tv5monde.com>

Head of Department:

- Ms Louise Parmenter – KS5
- Ms Kathrin Weers – KS3& 4

Introduction: Taking IGCSE German means you will:

- Have much more fun when travelling to a German speaking country (and there are many!)
- Add an extra dimension to your profile which will impress anyone who reads your CV.
- Be in a stronger position to get a job in companies with international links or to work abroad like BMW, Mercedes, Porsche and Bosch.
- Be well prepared to continue German at A Level at Caxton College.

The IGCSE German course will equip you to use spoken and written German in practical everyday situations – on holiday, at the shops or restaurants etc. and also offers valuable insights into the culture where German is spoken. In lessons, we aim to share our passion for the German language and culture with our students and encourage them to use the language as much as possible in lessons.

Course content:

Year 10:

- Home and Abroad
- Education and Employment
- Personal life and relationships
- The world around us.
- Social activities, Fitness and Health

Assessment: The IGCSE German examination is designed to test ability in the four skills of listening, speaking, reading and writing.

- Paper 1 - Listening and Responding (25%). 35 minutes.
- Paper 2 – Reading and Writing (50 %). 1 hr 45 minutes.
- Paper 3 – Speaking Assessment (25%). 8-10 minutes.

Exam board: Edexcel

Entry requirements for Year 10: Passed German in Year 9 with a grade 5.

Possible future careers: German offers numerous career opportunities, such as engineering, law, business and finance. Germany has the strongest and biggest economy in Europe and the fourth biggest in the world.

Value of subject for the university: At the University of Valencia, you may study a Degree in Translation and Interlinguistic Mediation with German and at Oxford University you could even study Philosophy with German and another language. If you are interested in automotive design and engineering, you have the option to study it at the Universitat Politecnica de Catalunya and then complete an apprenticeship at BMW in either Oxford or Munich in Germany. For those who love motor racing and want to travel the world, you could join the F1 Mercedes Petronas Motorsport Team and work with famous car racers like Lewis Hamilton and could even be involved in the most advanced car-racing design teams in the world!!

Subjects that can be complementary: A combination of Physics and German or Business or Economics with German would be very good options to choose for Key Stage 4.

Head of Department: Ms Jennifer Freemantle

Introduction: ‘Our world has never been so well connected, so complicated and so unpredictable. As students of geography, how can we make sense of this planet to ensure a prosperous future for the human race?’ Theoretical content and practical skills are at the centre of this exciting, contemporary and critical journey through some of the most important questions facing our world today. We will investigate global economies, environmental issues, the most destructive forces known in nature and some of the largest urban areas in the world.

Course content:

Year 10:

- A. Hazardous environments
- B. Urban environments + Practical fieldwork investigation
- C. Economic activity and energy

Year 11:

- A. River environments + Practical fieldwork investigation
- B. Globalisation and migration
- C. Revision

Assessment: During Year 10 and Year 11, each unit will be assessed through a number of tasks, projects and exam questions which contribute to term grades. Each of these assessments will be designed to develop key exam skills and techniques needed for the final IGCSE exams in Year 11.

- Paper 1: Physical Geography: Hazards and Rivers (40%). 1h 10 minutes.
- Paper 2: Human Geography: Urban environments, economic activity and global issues (60%). 1h 45 minutes.

Exam board: Edexcel

Entry requirements for Year 10: As good written English and numeracy

skills are vital for success in Geography, a level 6 in English and Maths and Geography from Year 9 is a minimum requirement.

Possible future careers: You will find Geographers working in a wide range of jobs, from the City of London stock exchange to urban planning, working in the environment and tourism, even in international charities and retail. Studying Geography can help young people achieve careers that are professionally and financially rewarding and also enjoyable. Geography illustrates the past, explains the present and prepares us for the future.

Value of subject for the university: Some subjects like Geography are more frequently required for entry to degree courses than others. These are called 'facilitating' subjects because choosing them at GCSE and Advanced Level leaves open a wide range of options for university study.

Subjects that can be complementary: English, Maths, Science, Business Studies, History.

Recommended web pages:

<https://www.gapminder.org/tools>

<https://earth.nullschool.net/>

Head of Department: Ms Jeanette Nugent

Introduction: HISTORY MATTERS! We cannot understand Trump without understanding Roosevelt and America's political background. We cannot understand Europe without understanding the catastrophic background of Germany in the 1920s and 30s, World War Two and the Cold War. We cannot even begin to predict our future without understanding the histories of the key protagonists China, America and Russia (the USSR). We will focus on the 20th Century because it matters to us now.

Course Contents:

Year 10:

- Germany 1918-45.
- A world divided: Super power relations 1943-72

Year 11:

- USA 1918-41
- China – Conflict, crisis and change

Types of assessment: Two papers

- Paper 1: Depth Studies -1h 30 minutes.
- Paper 2: Historical Investigations and Breadth Studies -1h 30 minutes.

Exam board: Edexcel IGCSE History

Entry Requirements: Level 5 in English and History.

Possible future careers: Lawyer, Journalist, Archaeologist, Trade Unionist, Economist, Politician, Immigration Officer, Town Planner, Accountancy, Social Services Manager, Archivist, Broadcaster, Foreign Services Officer, Police Officer, Teacher, Archivist, Museum Curator. Employers highly respect the knowledge, approaches and skills that form part of a History degree, making History an especially flexible IGCSE and A Level option for future career choices.

Subjects that can be complementary: History fosters a skill set that is highly beneficial to the studies of other subject areas such as Business Studies, Geography and Psychology. A good Historian can put a convincing argument together, write in a coherent and intelligent manner and knows much about the world we live in. These are key skills which are required in a vast array of professions such as law and journalism. Equally, professions such as Medicine or Engineering value it as a third subject at A Level. History graduates can therefore be found in a wide range of fields from politics to business. John F Kennedy, Woodrow Wilson and Annita Roddick, the founder of 'Body Shop', are only a few examples of highly successful and influential History graduates.

Value of subject for the university: Employers and universities know what good Historians can do and look favourably on those who studied it successfully even when outside the traditional areas associated with the subject. History is rightfully regarded as a highly academic and demanding subject and a History IGCSE qualification is therefore a very useful asset for future employees and degree courses. They will know that a History qualification means that you can write, can use complex sources to draw conclusions and argue backed with evidence and explanation. We are one of the 'facilitating' subjects identified by the top British universities. This means that we are one of the most popular subjects named by universities as being a preferred subject.

Alpha History <https://alphahistory.com/>

Head of Department: Ms Christine Bruce

Introduction: The course follows the structure of the textbook with five units each covering topics on number, algebra, shape and space and statistics. Other topics in Mathematics, such as set theory and calculus, are also introduced during Year 10.

Course Contents Year 10 & 11:

- 1: Numbers and the number system
- 2: Equations, formulae and identities
- 3: Sequences, functions and graphs
- 4: Geometry and trigonometry
- 5: Vectors and transformation geometry
- 6: Statistics and probability

Assessment: Two papers

- Paper 1 – 2 hour exam (50%)
- Paper 2 – 2 hour exam (50%)

Exam board: Edexcel IGCSE Maths (Higher Tier).

Entry requirements for Year 10: Level 5 in Maths at the end of Year 9.

Head of Department: Mr Gerry Paci

Introduction: The aim of the course is to provide students with wide ranging, essentially practical experience of Musical skills and understanding, suitable both as a basis for study of Music at A Level and a creative outlet for an interest in Music.

Course Information:

- **Performing 30%.**

All students will need to perform one solo piece and one ensemble piece by the end of the course.

- **Composing 30%.**

Students will compose Music throughout the course using computer sequencing software and will build up a portfolio of compositions in a variety of styles. They will then select two compositions to be submitted towards the final exam.

- **Listening 40%.**

Students will listen and respond to Music from a wide variety of styles and traditions. This will include jazz, classical, pop and rock music, folk and world music. There will be a listening exam at the end of the course.

Where could it lead?

GCSE Music provides a solid foundation for the AS/A level in Music and is an excellent entrance subject for university because admissions tutors look for well-rounded confident and culturally aware students. Music confederation students also develop all seven of the skills that define employability as announced by the Confederation of British Industry: self-management, teamwork, customer awareness, problem solving, numeracy and ICT. Perhaps most importantly, Music is a skill for life and provides opportunity for enjoyment, leisure, participation and social interaction.

Assessment: Students will be assessed continuously in performing, composing and listening. The performing and composing assessment is

worth 60%, and the listening component is evaluated in a 1 hour and 30 minute exam worth 40%.

Exam Board: Edexcel

Entry requirements for Year 10: Level 6 end of year grade. Grade 4 performance certificate or equivalent entering Year 10 on your chosen instrument or voice.

Possible future careers: The music and entertainment industry is big business in Europe and GCSE Music could pave the way to any career within the industry. These might include artist management, accountancy, copyright law, events management, journalism, performer, publisher, sound engineer, teacher, tv/radio presenter.

Value of subject for the university: As mentioned in 'Where could it lead' section.

Subjects that can be complementary: Science, Maths, English, History.

PHYSICAL EDUCATION

Head of Department: Mr Bleddyn Lewis-Jones

Introduction: Many of you will be thinking whether GCSE PE is the right course for you, so read on!

1) Are you interested in anatomy, physiology, health, fitness, drugs, diet, sports psychology, designing a training programme and much more?

2) Sport!! You don't have to be the most amazing sports person in the world, just enjoy sport and have an interest in developing your skill.

3) Are you determined, keen to succeed, motivated...? If so this could be the course for you!

Course Contents

Assessment:

Year 10		Year 11	
Theory	Practical	Theory	Practical
<ul style="list-style-type: none">• Health, fitness and well-being• Sports Psychology• Socio-cultural influences• Anatomy & Physiology	<ul style="list-style-type: none">• One team sport• One individual sport	<ul style="list-style-type: none">• Movement Analysis• Physical training• Exam preparation	<ul style="list-style-type: none">• One team sport• One individual sport• One team or individual sport

Theory (60%)

- Paper 1: Fitness and Body Systems (36%). 1 hour and 45 minutes
- Paper 2: Health and Performance (24%). 1 hour and 15 minutes

Practical (40%)

- 3 Practical performances/activities. (30%)
- 1 Coursework piece: Personal Exercise Programme (PEP). (10%)

Exam Board: Edexcel

Entry requirements for Year 10: Level 5 PE at the end of Year 9.

Possible future careers: PE complements nearly every subject and it can be studied alongside anything. It has a biology, psychology and sociology component and will be perfect for anyone looking at university degrees in these areas, as well as the traditional sports based courses:

Sports Medicine

Physiotherapy

PE Teacher

Fitness Instructor

Sports Psychologist

Nutritionist

Leisure Management

Sports Journalism

Subjects that can be complementary: Biology, Chemistry, Psychology, Sociology, Business Studies, languages, practically any subject!

*Topics covered for the Double and Single Award are the same, however for the single award, topics are covered in greater depth.

Assessment: The IGCSE is taken at the end of Year 11. The number of exams to be taken depends upon the award:

- **Double Award – students take 3 separate exams, 1 exam for each Science.**
 - Biology Paper 1 – 2 hour exam. 33.3%
 - Chemistry Paper 1 – 2 hour exam. 33.3%
 - Physics Paper 1 – 2 hour exam. 33.3%

- **Single Sciences – students take 6 separate exams, 2 exams for each Science.**

Biology

- Paper 1 – 2 hour exam. 61.1%.
- Paper 2 – 1 hour 10 minutes exam. 38.9%

Chemistry

- Paper 1 – 2 hour exam. 61.1%.
- Paper 2 – 1 hour 10 minutes exam. 38.9%

Physics

- Paper 1 – 2 hour exam. 61.1%.
- Paper 2 – 1 hour 10 minutes exam. 38.9%

Exam board: Edexcel

Entry requirements for Year 10:

- Pass the subject with a level 5 at the end of Year 9 for the Double Award Science.
- Pass the subject with a grade 6 at the end of Year 9 in order to take Single Sciences.

Head of Department: Ms Claire Brunell

Introduction: Are you interested in human behaviour and understanding more about why we do what we do? If so, then psychology is for you!

Course Contents: Throughout the course we look at a number of different behaviours in 7 different topics and think about why they happen. For example we consider questions like:

- Why people conform? And why some people don't?
- How does our memory work?
- How do we develop our ability to think?
- What causes addiction?
- How is animal communication different from human communication?
- How does the brain work?
- Why are we tricked by visual illusions?

In order to answer these questions we need to have a good understanding of how to do research on people, and throughout the course you will learn all about how Psychologists conduct their experiments. This is one of the most important parts of studying Psychology.

Assessment: Two exams at the end of year 11. Both are 1 hour and 45 minutes and have multiple choice, short answers and some extended writing.

Exam board : AQA

Entry requirements for Year 10: As Psychology is a science and, even though the studies are on people, we will still talk about things like IVs, DVs and fair tests. Due to this, we ask that you have at least a level 5 in Science from Year 9.

Possible future careers: As Psychology is all about people's behaviour it can help with lots of different careers.

For example, Clinical Psychologists can work with people with mental health problems but Occupational Psychologists might look at how to improve the way people are working in a business, and Sports Psychologists will work with athletes to help them improve.

Value of subject for the university: Many degrees will have elements of Psychology in them from Medicine to Business, Teaching to Sports Science, so an introduction to Psychology will help with many different degrees at university.

Subjects that can be complementary: Psychology can fit with many different subjects depending on your interests, e.g. biology and Psychology if you are interested in the human brain. Business and Psychology if you are interested in how consumers think. PE and Psychology if you are interested in how sports people can be motivated.

SPANISH LANGUAGE AND LITERATURE (AS LEVEL)

Head of Department: Ms Mar González

Introduction: Students in Year 10 are being prepared to take the AS Spanish exam in Year 11. Either being native or having an extremely good level of Spanish means that students can take the AS exam in Year 11 and complete the A Level in Year 12 leaving more time to study their remaining A Level exams in Year 13.

Course Contents Year 10, 11 & 12:

IAS (Y10 & 11)	IAL (Y12)
<ul style="list-style-type: none">• Youth matters• Lifestyle, health and fitness• Environment and travel• Education and employment	<ul style="list-style-type: none">• Youth matters• Lifestyle, health and fitness• Environment and travel• Education and employment• Technology in the Spanish-speaking world• Society in the Spanish-speaking world• Ethics in the Spanish-speaking world.
Once a week, we will read as a class. We will read one book per term. These books are: La Celestina By F. Rojas and El Camino by Miguel Delibes. Reading will be assessed, and the grade will make up part of the end of term grade.	

Assessment:

To achieve the IAS, students must complete Units 1 and 2 which are completely externally assessed.

To achieve the IAL (Year 12), students will complete the remaining Units 3 & 4 which are completely externally assessed.

In Year 11 students will complete:

- Paper 1 – Spoken expression and response (30% of AS). Oral exam. 8-10 minutes.
- Paper 2 – Understanding and written response (70% of AS). 2 hour 30 minutes exam.
 - Section A – Listening
 - Section B – Reading and Grammar
 - Section C - Writing

Recommended web pages:

<https://qualifications.pearson.com/content/dam/pdf/International%20Advanced%20Level/spanish/2016/specification-and-sample-assessments/IAL-Spanish-Specification.pdf>

Head of Department: Ms Pilar Tortonda

Introduction: The aim of the ELE programme is to increase the level of Spanish for those who are not native and have a lower level of Spanish, and are not able to follow the Spanish curriculum Lengua and Sociales classes. The focus is on 3 different aspects: listening, speaking and reading and writing with the aim to take the IGCSE exam at the end of Year 11.

Course Contents:

Term 1	Term 2	Term 3
<ul style="list-style-type: none"> • Ser vs estar • Relative pronouns • Adjectives to describe • Personality • Prepositions of place • Food and diet • Subjunctive (present) • Clothing 	<ul style="list-style-type: none"> • Textual connectors • The imperative (affirmative and negative) • The Press • Pluperfect preterite • Spanish inventions • Musical instruments • Professions 	<ul style="list-style-type: none"> • The subjunctive mood • Purpose sentences • Personal pronouns (subject + object) • Revision

Assessment: The subject will be assessed by regular tests on the matter taught in lessons. In addition, grades will be given for classwork, projects, etc. The end of the year grade will be obtained from the average of the term grades.

The IGCSE Spanish examination taken in Year 11 is designed to test ability in the four skills of listening, speaking, reading and writing.

- Paper 1 - Listening and Responding (25%). 35 minutes.
- Paper 2 – Reading and Writing (50 %). 1 hr 45 minutes.
- Paper 3 – Speaking Assessment (25%). 8-10 minutes.

Additional Information : Read over and revise class content regularly in order to develop good study habits. Try to practise the oral language as much as possible.

Head of Department: Ms Carla Denecker

Introduction: The LAMDA Level 1 - Grade 2 Award in Communication: Speaking in Public is designed to enable students to develop basic skills in public speaking. Students will be able to prepare and deliver a speech with a clear structure, speaking audibly and clearly. The use of visual aids will help to engage the audience. Students will be able to answer questions about the content of their speech and maintain a conversation with the Examiner on a topic of their own choice.

Course contents:

First Term	Second Term	Third Term
<ul style="list-style-type: none"> • Introduction to LAMDA • Informative Speech • Political Speech 	<ul style="list-style-type: none"> • Personal Speech • Persuasive Speech • Class Debating 	<ul style="list-style-type: none"> • Unifrog: University careers guide. • Students continue to explore possible university careers, job opportunities, etc.,

Students will be encouraged to develop their skills in public speaking, debating, thinking and relating with others so that they can make correct decisions regarding their future and achieve ambitious goals.

This subject supports the subject of English as it is focused on improving the comprehension and oral expression of the students.

Assessment: Students will be evaluated for their ability to perform different speeches, their ability to participate in public speaking activities and for their effort and contribution in all classroom activities. There will be an assessment for every different speech style.

In April students will take the external LAMDA exam (Speaking in Public), which will give them an official certificate according to their exam grade (Pass, Merit or Distinction).

INTERNALLY ASSESSES COMPULSORY SUBJECTS

SPANISH SOCIAL STUDIES

Head of Department: Ms M^a Carmen Lopez

Course Contents:

First Term	Second Term	Third Term
Political Geography. Political and territorial organisation of Spain and the Valencian Autonomous Region.	Human and physical Geography. Population and cities. Physical Geography of Spain and the Valencian Autonomous Region.	Economic Geography. Primary, secondary and tertiary sectors in Spain. Relationship of these sectors with innovation and technology.
The book students will read during this year is <i>La hija del Tuareg</i> .		

Assessment: An exam takes place each term with other assessments contributing to each term grade, which can be made up from a combination of class work, reading comprehension tasks, essays, projects, evaluation of notebooks and self assessments. The overall grade for the year is a combination of the 3 terms, with term 3 being weighted slightly less than term 1 and 2 due to term 3 being that much shorter.

Recommended web pages:

- www.leccionesdehistoria.com
- www.profesorfrancisco.es

PERSONAL DEVELOPMENT

Head of Department: Ms Carolina Cebrian

Introduction: In Year 10 our aim is to encourage self-knowledge and enhance pupils' self-esteem with a realistic and positive view of themselves, as well as discuss and analyse the influence of beauty stereotypes, television, advertising, peer group pressure and giving an insight into the dangers of alcohol and cannabis.

Course Contents:

First Term	Second Term	Third Term
<ul style="list-style-type: none">• Advertisement• Body image and self esteem• Inner beauty	<ul style="list-style-type: none">• Social media pressure• Alcohol & cannabis risks	<ul style="list-style-type: none">• TV pressure• Peer pressure

Assessment: A project will be assigned by the teacher each term, which is to be completed in class and at home. Failure to hand in the project will result in the student failing the term. In addition to the project, student participation, attitude and classwork also contribute to the final grade. The overall grade for the year is a combination of the 3 terms, with term 3 being weighted slightly less than term 1 and 2 due to term 3 being shorter.

Recommended web pages:

- www.kidshealth.org
- www.childnet.com
- www.drugfreeworld.org
- www.fad.es
- www.lasdrogas.info
- www.pnsd.msc.es

Additional Information: We encourage you to discuss the different topics with your child so that they will be more aware of the values we wish to instil.

PHYSICAL EDUCATION

Head of Department: Mr Bleddyn Lewis-Jones

Introduction: PE is a compulsory subject under the National Curriculum at Key Stages 3 and 4. At Caxton College we ensure that the stated aims of the National Curriculum for PE are fulfilled, so that pupils:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

Course Contents:

Term 1	Term 2	Term 3
Water polo / Fitness	Football / Badminton	Athletics
Football/ Badminton	Orienteering & Problem solving	Volleyball / Softball
Basketball / Fitness	Handball / Basketball	Outdoor swimming

Assessment: Each topic students will be assessed on a scale from 9-1 on their ability to perform the required skills of that activity and then how they can apply those skills in competitive game situations (where possible). All assessment criteria is posted and available via Google Classroom before the start of the activity. At the end of each term the activities that have been assessed are averaged out giving an overall grade for the term. The overall grade for the year is a combination of the 3 terms, with term 3 being weighted slightly less than term 1 and 2 due to the difference in the term length.

Recommended web pages:

- <https://www.bbc.co.uk/sport>
- <https://www.ukcoaching.org/resources>
- <https://www.uksport.gov.uk/>

Additional Information:

- Students should bring PE kit to every lesson even if they will not be taking an active part due to injury or illness.
- Throughout the year there will be an opportunity to represent the school in Inter-school competitions; Football, Basketball, Athletics and Swimming. Trials are held for such events where all students are welcome to attend and try out for the team.

RELIGION/ETHICS

Head of Department: Ms Almundena Cozar

Introduction: Students in Year 10 and Year 11 continue to study either Religion or Ethics following the course contents outlined below.

Course Contents:

Religion	Ethics
<ul style="list-style-type: none">• The Bible: The New Testament• Characteristics of the Catholic Church	<p>Meta ethics:</p> <ul style="list-style-type: none">• A J Ayer• Ludwig Wittgenstein• R M Hare <p>Existentialism:</p> <ul style="list-style-type: none">• Nietzsche• Kierkegaard• Camus <p>Positivism and its critics:</p> <ul style="list-style-type: none">• Auguste Comte• Karl Marx• Friedrich Hayek• Karl Popper

Assessment: A project will be assigned by the teacher each term, which is to be completed in class and at home. Failure to hand in the project will result in the student failing the term. In addition to the project, student participation, attitude and classwork also contribute to the final grade. The overall grade for the year is a combination of the 3 terms, with term 3 being weighted slightly less than term 1 and 2 due to term 3 being that much shorter.

Recommended web pages: More recommendations will be given throughout the course.

Additional Information: In Year 10 and 11, Catechesis to prepare to receive the sacrament of Confirmation is given outside of the school timetable, at 5:00pm. If pupils wish to make their Confirmation, they must attend

the subject of Religion throughout both Year 10 and Year 11. Students need to remember that Religion is not just a subject but also a way of life, therefore the pupils' education should be shared with the families, and reinforced through discussion of topics at home, practising basic prayers, etc. Note: In Years 10 & 11, Catechesis in preparation for the Confirmation is taught outside the school timetable, after 5.00pm. In order to be allowed to attend, students should have attended Religion classes since they started their Secondary education.

VALENCIAN LANGUAGE

Head of Department: Ms Pilar Tortonda

Introduction: Valencian Language is a compulsory subject that all students must take in order to successfully complete their Secondary education in Spain.

Course Contents:

First Term	Second Term	Third Term
Travels: <ul style="list-style-type: none"> Description of places, substantives, descriptive texts, transport, European nations 	Sport: <ul style="list-style-type: none"> Informal chats, irregular verbs, sports, dieresis 	Traditions: <ul style="list-style-type: none"> Riddles, the predicate, "g/j", prose friction
Shopping: <ul style="list-style-type: none"> Adjectives, narrative texts, digraphs, diphthongs and hiatus, advertising 	The school: <ul style="list-style-type: none"> Debates, adverbs, drama 	Food: <ul style="list-style-type: none"> Formal chat, direct/ indirect objects, voiced and voiceless /s/
Our City: <ul style="list-style-type: none"> Speeches, determiners, expositive texts, syllables and accent marks 	Reading: <ul style="list-style-type: none"> Literary genres-poetry, the subject, "b/v" 	New technologies: <ul style="list-style-type: none"> Argumentative texts, adverbial of time and place, "r/rr/h", computer science
The human body: <ul style="list-style-type: none"> The interview, regular verbs, instructive texts 		

Assessment: Each term grade is generated from regular assessments completed in class and a combination of classwork, project work and exercises completed throughout that term. The overall grade for the year is a combination of the 3 terms, with term 3 being weighted slightly less than term 1 and 2 due to term 3 being that much shorter.

Recommended web pages:

- Jugallengua – Downloadable from: <http://www.ceice.gva.es/es/web/dgplgm/jugallengua>
- More recommendations will be given throughout the course.

Additional Information: It is important to note that all students must study Valencian Language, whether they are foreign or native Spanish speakers. This is a requirement by the Spanish government. All lessons are carefully planned and prepared to ensure they are accessible by all, and that all students make good progress.
